

Dependent Origination

1. Old oral tradition:

Nescience – formations – consciousness – name-form – six bases – contact – feeling – craving – appropriation – becoming - birth – aging-death

2. New structural interpretation = showing suffering of samsara (impermanence):

Notes on the terms:

Name-form = sense object
= dharma

Six bases = six sense organs

Contact = contact of sense organ,
sense object and consciousness

Formation = function (karma)

Becoming = birth/aging/death
= samsara (flow)

Craving, formations & suffering
are called “three steps (sando)

Nescience (existential ignorance)

appropriates body-mind as self,
involved in **becoming (birth,
aging, death** = samsara).
